### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 119-123, 125 and 128-134 are still provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 85-110 of copending Application No. 10/781,240. Although the conflicting claims are not identical, they are not patentably distinct from each other because both sets of claims are drawn to a process (method) of lubricating a first surface that frictionally engages a second surface with a lubricant composition comprising a superabsorbent polymer combined with a material for decreasing friction between moving surfaces.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

This rejection has been maintained because applicant did not file a terminal disclaimer over this copending application. In the terminal disclaimer filed 24 July 2007, applicant stated that:

“...any patent that may issue on co-pending United States Patent applications Serial No. No. 08/943,125 and/or co-pending United States Patent applications Serial No. No. 08/943,125 [‘the co-pending applications’].”

See page 1, second paragraph. The 08/943,125 application was cited twice in the terminal disclaimer and this application, S.N. 10/733,419, was NOT cited in the terminal disclaimer.

### ***Conclusion***

The rejection of claims 119-133 on the grounds of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-15 of U.S. Patent No. 6,734,147 made in the previous office action is withdrawn in view of the terminal disclaimer filed 24 July 2007.

The provisional rejection of claims 119-133 on the grounds of nonstatutory obviousness-type double patenting as being unpatentable over claims 43-58 of copending Application No. 08/943,125 made in the previous office action is withdrawn in view of the terminal disclaimer filed 24 July 2007.

The rejection of claims 119-133 under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Rogers et al (5,626,154) made in the previous office action is withdrawn in view of the amendments to the claims.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
